

CLAIMS

1. An assembly for the preparation of an egg-product comprising dried egg (2) and a container (1) which is designed to house said dried egg (2) until it is to be used, characterized by the fact that said container comprises a bag (1) having at least two compartments (11, 12) which are separated from one another by means of a pressure-breakable welded seam (13), a pre-determined quantity of dried egg (2) being housed in one compartment (11), and a pre-determined quantity of water (3) being housed in another compartment (12).

2. An assembly according to claim 1, characterized by the fact that said bag (1) is formed by at least one sheet (15, 16) of flexible material.

3. An assembly according to claim 2, characterized by the fact that said sheet (15, 16) is heat-welded throughout at least one part of the perimeter (14) of the bag (1).

4. An assembly according to claims 2 or 3, characterized by the fact that said sheet (15, 16) of flexible material is formed by a laminate comprising at least one layer of polyester barrier which is on the outer face of the bag (1) and at least one layer of peelable polyethylene which is on the inner face of the bag (1).

5. An assembly according to claim 4, characterized by the fact that the sheet (15, 16) comprises an inner layer and an intermediate layer of polyester barrier, said intermediate layer having a ceramic coating applied thereto.

6. An assembly according to any of claims 2 to 5, characterized by the fact that at least one part (17) of said sheet (15, 16) is transparent.

7. An assembly according to any of the previous claims, characterized by the fact that the dried egg (2) is mixed with a proportion of at least one component selected from yolk, starch, bicarbonate and an anti-caking agent, or a mixture thereof.

8. An assembly according to the previous claims.

characterized by the fact that a compartment (11) of the bag (1) comprises additional ingredients for the preparation of the egg-product.

5 9. An assembly according to claim 8, characterized by the fact that said additional ingredients are housed in the same compartment (11) as the dried egg (2)

10 10. An assembly according to any of the previous claims, characterized by the fact that the bag (1) has a scale represented on its outer surface.
